PROFILE

B.Tech Computer Science & Engineering student at Lovely Professional University with an interest in Full-Stack Development and IoT. Enjoys building practical projects that connect software with real-world applications. Open to internships and entry-level opportunities.

TECHNICAL SKILLS

Languages: Python, Java, C, JavaScript

Web: HTML, CSS **Database:** DBMS

Concepts: Data Structures & Algorithms, Object-Oriented Programming

Tools: Git, GitHub, Docker, Postman, VS Code, XAMPP

PROJECT

Drunk-Driving Prevention System

Arduino-based safety system designed to prevent vehicle starting when alcohol is detected. Uses an MQ-3 alcohol sensor and HC-SR04 ultrasonic sensor for alcohol and driver-presence detection, with a buzzer for alerts and an LED to simulate engine control.

Technologies: Arduino Uno, Embedded C, MQ-3 Alcohol Sensor, HC-SR04 Ultrasonic Sensor, Buzzer, LED

EDUCATION

Lovely Professional University — B.Tech, Computer Science & Engineering

Phagwara, Punjab | Aug 2025 – Present | CGPA: 7.18

BP Indraprastha International School — Intermediate

Muzaffarpur, Bihar | 2023 – 2025 | 65%

CERTIFICATIONS

- **Computer Programming** — iamneo / Lovely Professional University, May 2026 (150-hour course)
- **CS105: Introduction to Python** — Saylor Academy, Feb 2026

CAREER OBJECTIVE

To start my career in software development or IoT, contribute to practical projects, and continue improving my technical and problem-solving skills.

Open to: Internships | Entry-Level Roles
